## INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

(Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference aroma filter	FOR FURTHER ACTION	See Form PCT/IPE	A/416	
International application No. PCT/IB2004/003589	International filing date (day/month)	Priority date (day 12.11.2003		
International Patent Classification (IPC) of B65B29/02, B65B9/04	national classification and IPC			
Applicant AROMA SYSTEM SRL et al.				
<ol> <li>This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36.</li> </ol>				
2. This REPORT consists of a total of 4 sheets, including this cover sheet.				
3. This report is also accompanied by ANNEXES, comprising:				
a Sent to the applicant and to the International Bureau) a total of sheets, as follows:				
sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).				
sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.				
b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)), containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).				
4. This report contains indication	s relating to the following items:			
☐ Box No. I Basis of the				
Box No. II Priority				
Box No. III Non-establis	shment of opinion with regard to no	elty, inventive step and industr	ial applicability	
	of Invention			
Box No. V  Box No. V  Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement				
☐ Box No. VI Certain documents cited				
☐ Box No. VII Certain defe	ects in the international application			
☐ Box No. VIII Certain obs	☐ Box No. VIII Certain observations on the international application			
Date of submission of the demand	Date of	completion of this report		
Date of Submission of the definition

# INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/IB2004/003589

		No. I Basis of the report		
1.	With filed	With regard to the <b>language</b> , this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.		
		- the following language into the following language.		
		<ul><li>☐ international search (und</li><li>☐ publication of the international preliminary</li></ul>	er Rules 12.3 and 23.1(b)) tional application (under Rule 12.4) examination (under Rules 55.2 and/or 55.3)	
2.	With regard to the <b>elements*</b> of the international application, this report is based on <i>(replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):</i>			
	Description, Pages			
	1-8		as originally filed	
Claims, Numbers				
1-13 as originally filed		3	as originally filed	
	Dra	Drawings, Sheets		
	1/24	4-24/24	as originally filed	
		a sequence listing and/or a	ny related table(s) - see Supplemental Box Relating to Sequence Listing	
3	. 🗆		ulted in the cancellation of:	
		<ul><li>the description, pages</li><li>the claims, Nos.</li></ul>		
		☐ the drawings, sheets/fig☐ the sequence listing (sp	pecify):	
		☐ any table(s) related to s	equence listing (specify):	
4	l. □ ha Su	This report has been establed not been made, since they upplemental Box (Rule 70.2(c	olished as if (some of) the amendments annexed to this report and listed below have been considered to go beyond the disclosure as filed, as indicated in the si)).	
		☐ the description, pages☐ the claims, Nos.		
		☐ the drawings, sheets/fig☐ the sequence listing (s)	pecify):	
		any table(s) related to s	sequence listing (specify):	
	*	If item 4 applies, s	some or all of these sheets may be marked "superseded."	

International application No. PCT/IB2004/003589

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N) Yes: Claims 1-13

No: Claims

Inventive step (IS) Yes: Claims 1-13

No: Claims

Industrial applicability (IA) Yes: Claims 1-13

No: Claims

2. Citations and explanations (Rule 70.7):

see separate sheet

### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

PCT/IB2004/003589

#### Re Item V.

The following documents are referred to in this communication: 1

D1: US 5 012 629 A (REHMAN ET AL) 7 May 1991 (1991-05-07)

D2: EP 0 943 544 A (DIMA S.R.L) 22 September 1999 (1999-09-22)

D3: EP 0 432 126 A (CLOUD CORPORATION) 12 June 1991 (1991-06-12)

Document D1, which is considered to represent the most relevant state of the art, discloses a filter pod packaging machine comprising a wheel rotating about a 2 horizontal axis and having circumferentially spaced recesses for the production of the pods.

From this, the subject-matter of independent claim 1 differs in that the machine has an intermittently rotating polygonal prismatic wheel with each flat face comprising at least one recess corresponding to the size and shape of a pod.

- 2.1 The subject-matter of claim 1 is therefore novel (Article 33(2) PCT) The problem to be solved by the present invention may be regarded as providing a machine which produces pods with a constant shape and compactness.
- 2.2 The solution to this problem proposed in claim 1 of the present application is considered as involving an inventive step (Article 33(3) PCT) because there is no suggestion in the available prior art to use a polygonal prismatic wheel, which provides for recesses which exactly match the size and shape of the pods to be produced.
- 2.3 Claims 2-12 are dependent on claim 1 and as such also meet the requirements of the PCT with respect to novelty and inventive step.
- Claim 13 relates to a pod obtained with the machine of claim 1, which is therefor new 3 and inventive for the same reasons as for claim 1.
